

## EQUAL RIGHTS FOR PARASITES!

Who cares for the poor forgotten parasites of our precious ecosystem? No-one, that's who. These unfortunate things can't even speak for themselves. So I, being ever so virtuous, am going to champion their cause, and speak for them.

What can be more fundamental than the right to exist? All we ask is for co-existence. We simply don't want to be wiped out, exterminated or genocided. Us germs deserve the right to life – we too wish to evolve and thrive. Yet the racist neo-Nazi patriarchy, cloaking their murderous deeds in uniforms of white coats, are allowed to heap death and destruction on our kind. Bacteria, protozoa, viruses, flukes and worms are all unique and special members of our diverse family. We stand together as one to call on man's humanity for redress, with atonement for the discrimination against us and our cruel treatment in the past, when we suffered vicious attacks with all manner of noxious chemical agents.

Besides the mass slaughter, so-called protective measures inhibit our natural expression. We demand the immediate cessation of use of soap, bleach, masks, vitamin supplements and medicines. Only then will there be justice.
